Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

A. Generating alert to operator of the primary vehicle when presence of a U-turn pursuit maneuver of the primary vehicle and one or more parameters of the closing vehicle at a predetermined status.

B. Generating alert to operator of the primary vehicle when pattern corresponds to predetermined pattern indicative of particular driving maneuver, one or more parameters of the state of movement of closing vehicle at a predetermined status, and another condition wherein particular driving maneuver selected from the group consisting of speed variation pattern and vehicle transmission setting change maneuver.

2. The species are independent or distinct because: In B, the alert is generated requiring different condition to compare with condition to generate an alert in A above.

3. Applicant is required under 35 U.S.C 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, the independent claims 1, 2, and 37 are generic.

4. Upon election of invention B only, the applicant is further required to elect a single species of the following under 35 U.S.C 121 for the purpose to examination. This additional requirement is to facilitate examining due to the broad range of particular driving maneuver available in applicant's method:

Bi. Elect one of the disclosed species of input unit from among the Markush group of species. For example, speed variation pattern only, or vehicle transmission setting change only, etc.

Note: In regard to single species election of species Bi, the election should not be open-ended (i.e., comprising). An open-ended election will be considered non-responsive.

5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3663

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
